Mr Bob Miller
Mine Manager
Centennial Airly Pty Limited
319 Glen Davis Road
CAPERTEE NSW 2846

Dear Mr Miller,

Airly Coal Mine – Extraction Plan Variation

I refer to your letter dated 3 June 2016 requesting a variation to the approved Extraction Plan for second workings extraction at Airly Coal Mine under development consent DA162/91.

We note that the proposed variation is minor and only involves first workings development and pillar splitting and quartering, and that no panel and pillar mining is proposed.

The Department has reviewed the proposed variation, including the revised versions of the following documents:

- Main Report and Master Trigger Action Response Plan;
- Land Management Plan;
- Built Features Management Plan;
- Public Safety Management Plan; and
- Subsidence Monitoring Program.

It has also considered the views of relevant Government agencies.

The Secretary has approved the variation to the Airly Coal Mine Extraction Plan.

I would appreciate it if you could make the revised Extraction Plan available on your website as soon as possible.

Yours sincerely

David Kitto
Executive Director
Resource Assessments & Business Systems
as the Secretary's nominee
