## INTRODUCTION

This monitoring report has been prepared to make environmental monitoring data collected at Clarence Colliery available to members of the public in accordance with the requirements of Part 3.5, Section 66(6) of the Protection of the Environment Operations Act 1997. This document also satisfies conditions 13 (Air Quality Impact Assessment Criteria) and 15 (Noise Impact Assessment Criteria) under Schedule 3 of Development Consent 504-00 and summarises environmental monitoring results for Clarence Colliery for the period of 1 July 2018 to 31 July 2018 (herein referred to as the reporting period).

Table 1 – Colliery Information

Colliery Information	
Premises Details	Clarence Colliery
Address	Off Bells Line of Road, Newnes Junction NSW 2790
Licensee	Clarence Colliery
EPL no	726
EPL location	<a href="https://apps.epa.nsw.gov.au/prpoeoapp/ViewPOEOLicence.aspx?DOCID=116841&amp;SYSUID=1&amp;LICID=726">https://apps.epa.nsw.gov.au/prpoeoapp/ViewPOEOLicence.aspx?DOCID=116841&amp;SYSUID=1&amp;LICID=726</a>

## SURFACE WATER QUALITY

The following parameters are monitored monthly during discharge at Licensed Discharge Point 2 (LDP002), Licensed Discharge Point 3 (LDP003) and Licensed Discharge Point 4 (LDP004) in accordance with the requirements of Environmental Protection License 726 (EPL 726). Licensed Discharge Point 1 (LDP001) is no longer used by Clarence Colliery.

LDP002 discharges treated underground water from the Clarence water treatment plant and treated surface water. LDP003 and LDP004 provide emergency discharge during periods of sustained heavy rainfall. There were no discharges from LDP003 and LDP004 during the reporting period.

Water quality results are tabulated in Table 2.

Figure 1 below depicts 12 monthly pH results at LDP002, as well as the upper and lower concentration limits.

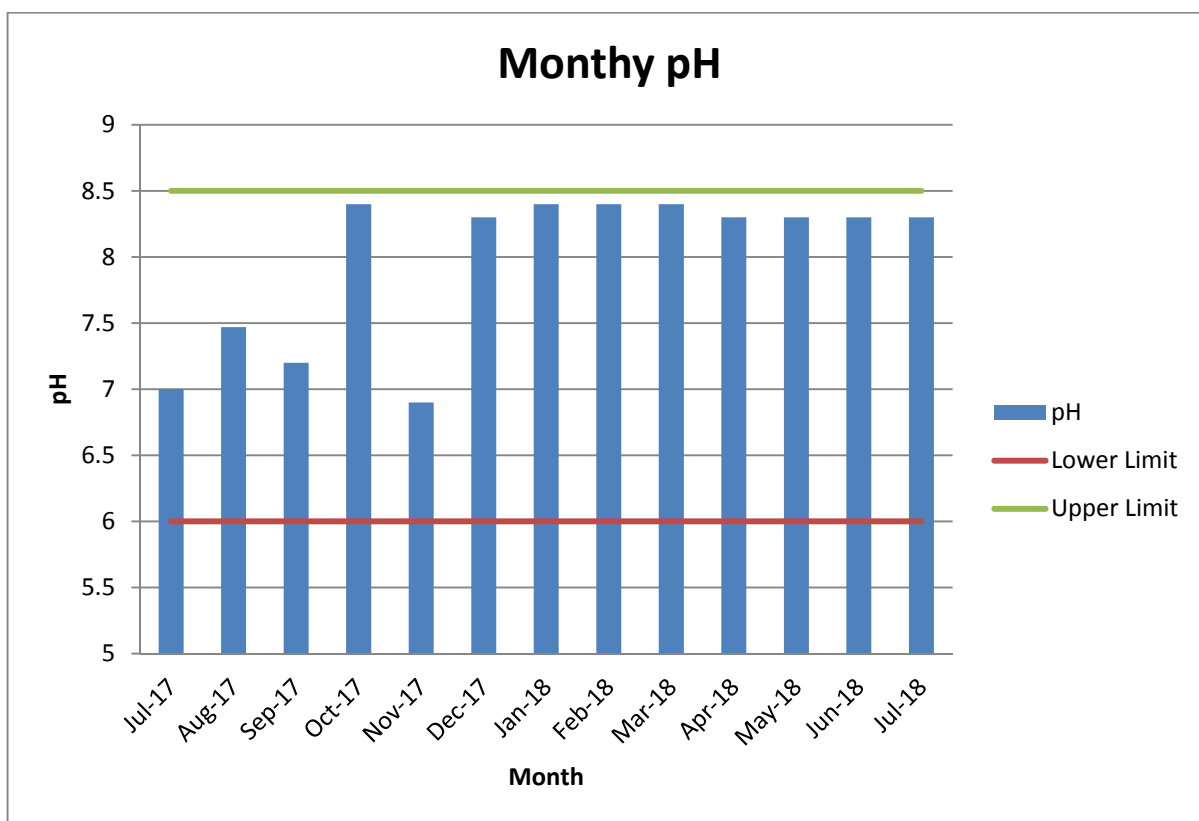

Figure 1 - LDP002 Monthly pH

## WATER VOLUME

Water volume discharged off site at LDP002 is measured in accordance with EPL 726. EPL 726 limits the maximum volume of water discharged from LDP002 to 25,000 kL/day. This limit may be exceeded when there is greater than 10mm of rainfall within a 24 hour period. A total of 418084 kL of water was discharged from LDP002 during the reporting period.

A summary of total water volume discharged, including maximum daily discharge for the month, is provided in Table 3.

Table 3 – Discharge Summary for LDP002-LDP004

Date Published	10/082018	Licensee	Clarence Colliery				
Date Sampled	Continuous	Address	Off Bells Line of Road, Newnes Junction				
Date Obtained	10/082018	EPL No.	726				
Discharge Point	Unit of Measure	Monitoring Frequency Required by Licence	No. of Days	Min. Value	Daily Average	Max Value	Licence Exceed (YES/NO)
LDP002 - Treated Mine Water and Surface Water Discharge	kl	Continuous	31	3754	13936	17451	NO
LDP003 – Emergency Discharge Only	kl	Estimate During Discharge	0	n/a	n/a	n/a	NO
LDP004 – Emergency Discharge Only	kl	Estimate During Discharge	0	n/a	n/a	n/a	NO

Figure 2 below depicts the monthly discharges at LDP002.

Figure 2 – LDP2 Monthly Discharge Volumes

## AIR QUALITY MONITORING

The air quality monitoring results for the reporting period are summarized below.

### Depositional Dust

Depositional dust (g/m<sup>2</sup>/mth) results (insoluble solids) for the reporting period are shown in Table 4. The average year to date is below the maximum allowable annual average dust level of 4g/m<sup>2</sup>/mth in accordance with Schedule 3 Condition 13 of Development Consent DA504-00.

Table 4 – Depositional Dust

Date Published	15/07/2018	Licensee	Clarence Colliery	
Date Sampled	June 2018	Address	Off Bells Line of Road, Newnes Junction	
Date Obtained	10/07/2018	EPL No.	726	
Dust Gauge	Unit of measure	Days Exposed	Insoluble Solids	Annual Average Limit
DG1	g/m <sup>2</sup> /month	28	0.2	4
DG2	g/m <sup>2</sup> /month	28	2.1	4
DG3	g/m <sup>2</sup> /month	28	0.2	4

Figure 3 and 4 depict the monthly dust gauge results and the rolling 12 month average depositional dust gauge.

Figure 3 – Monthly Dust Gauge Results

Figure 4 – Rolling 12 Month Dust Gauge Averages

## COMPLAINTS

One complaint was received for the reporting period regarding a truck driving west on Bells line of Road. The truck was over the centre line forcing the complainant to take evasive action. As no identification details were recorded it could not be determined if the truck was from a company that sources coal from Clarence or, whether the truck was undertaking haulage for any purpose unrelated to the sites activities. Notwithstanding a notice was distributed to all contractors and independent haulage companies reminding them of their obligation to safety and responsible driving behaviours.

A summary of complaints received at Clarence Colliery for 2018 is shown in Table 5 below.

Table 5 – Complaints received at Clarence Colliery 2018

<b>Data Published:</b>	13/08/2018	<b>Licensee:</b>	Clarence Colliery	
<b>Data Sampled:</b>	10/08//2018	<b>Address:</b>	Off Bells Line of Road, Newnes Junction
